Summary

Passionate Full-Stack Developer with 3 years of experience building responsive web applications. Focused on delivering efficient solutions and excited to grow within a collaborative team environment.

Technical Skills

Programming Languages: JavaScript, TypeScript, Java, PHP

Front-End Technologies: React.js, Next.js, Redux Toolkit, Tailwind CSS, Material UI, Framer Motion, HTML5, CSS3

Back-End Technologies: Laravel, Spring Boot, RESTful APIs, JWT, OAuth2, Flyway Migrations

Databases: MySQL, MongoDB, PostgreSQL (basic)

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Figma (basic)

Development Practices: Agile Scrum, Responsive Design, Test-Driven Development, Version Control, CI/CD (basic)

Soft Skills: Team Collaboration, Analytical Thinking, Problem Solving, Time Management, Communication

Professional Experience

Frontend Developer (Full Stack – as needed), Creation Soft Nepal, Kathmandu, Nepal Oct 2023 – Feb 2025
Led the frontend development of responsive web applications using React.js and Tailwind CSS. Worked cross-functionally to deliver high-performance, user-friendly interfaces and contributed to backend features as needed, enhancing system integration and security.

Inventory Management System

- Developed a secure, role-based inventory dashboard using React.js and Laravel, enabling smooth product and stock management.
- Integrated JWT and OAuth2 authentication, ensuring robust multi-role access and improving system security.
- Collaborated with UI/UX Designers, Backend Engineers, and PMs to deliver on-brand, high-functioning features on time.
- Built reusable components and optimized performance, reducing load times and improving maintainability.
- Connected frontend to REST APIs for real-time stock and vendor updates, enhancing operational efficiency.

Dynamic Company Website with CMS

- Created a responsive, SEO-optimized company website using Laravel Blade and React.js with a custom CMS for content control.
- Designed a user-friendly admin interface enabling non-technical users to manage site content and media easily.
- Applied image optimization and lazy loading, improving page performance and reducing bounce rate by 30%.
- Styled the UI with Tailwind CSS to ensure consistency and mobile responsiveness across browsers.
- Deployed the website using a control panel (e.g., cPanel), managing domain configuration, file uploads, and SSL setup.

Frontend Developer Intern, Creation Soft Nepal Jul 2023 – Nov 2023
• Designed UI components using React.js and Tailwind CSS, ensuring WCAG accessibility and cross-device compatibility.
• Improved front-end performance by 50% through code splitting, lazy loading, and component optimization.
• Contributed to an internal UI library, reducing repetitive code, and improving consistency across projects.
• Advanced concepts such as state management, routing, and component lifecycle were learned under the guidance of a senior developer.
• Promoted to Full-Stack Developer in 3 months due to strong technical skills and proactive collaboration.

Education

Hetauda School of Management, Bachelor in Computer Science GPA: 2.82

- **Certifications:** Meta Front-End Development Specialization – Coursera
- **Coursework:** Data Structures, Web Development, Software Engineering, API Integration, Responsive UI/UX, JavaScript Frameworks (React.js, Next.js), Database Design
